# ANNUAL CATCHER VESSEL CRAB ECONOMIC DATA REPORT (EDR)

CALENDAR YEAR 2010

This form can be downloaded from  
<http://alaskafisheries.noaa.gov>

#### PUBLIC REPORTING BURDEN STATEMENT

Public reporting burden for this collection of information is estimated to average 7.5 hours per response, including time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden to Assistant Regional Administrator, Sustainable Fisheries Division, NOAA National Marine Fisheries Service, P.O. Box 21668, Juneau, AK 99802-1668.

#### ADDITIONAL INFORMATION

Before completing this form, please note the following: 1) Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number; 2) This information is mandatory and is required to manage commercial fishing efforts for crab under 50 CFR part 680 and under section 402(a) of the Magnuson-Stevens Act (16 U.S.C. 1801, *et seq.*); 3) Responses to this information request are confidential under section 402(b) of the Magnuson-Stevens Act (16 U.S.C. 1801, *et seq.*). They are also confidential under NOAA Administrative Order 216-100, which sets forth procedures to protect confidentiality of fishery statistics.

## ANNUAL CATCHER VESSEL EDR

### Introduction

This report collects information on Bering Sea and Aleutian Islands Management Area (BSAI) crab operations, including Western Alaska Community Development Quota Program (CDQ) crab fisheries. These fisheries are referred to as crab rationalization fisheries (CR fisheries). Pursuant to the legislation, the data and identifiers will also be used for program enforcement and determination of qualification for quota shares. Consequently, identifiers and data will be disclosed to NOAA Enforcement, NOAA General Counsel, the Antitrust Division of the Department of Justice, the Federal Trade Commission, and NOAA Restricted Access Management Program.

You have received this form because our records show that you are either the owner of a catcher vessel that participated in the BSAI crab fisheries in the past or were leased a catcher vessel that participated in the BSAI crab fisheries in the past. **You are required to submit the Certification Pages (pages 3 and 4) and any additional information requested in the Economic Data Report (EDR). Failure to submit an EDR form when required will result in delay in and/or denial of any and all crab permit applications.**

To make sure that each company is consistently and accurately completing the EDR, random audits will be performed by a qualified accountant on some of the EDRs for a subset of the crab fishery participants. This step will ensure that the data can be relied upon to produce accurate and reliable information for the Alaska crab fisheries.

Auditors will verify records by comparing specific elements of the report with your accounting records. To make this activity as efficient and non-intrusive as possible, we suggest that you:

1. Keep a copy of the completed EDR or certification pages you submit to the Data Collection Agent (DCA). Copy and attach extra sheets as needed.
2. Keep a file that has all of the supporting information used in the preparation of the EDR.
3. Make sure that the EDR agrees to the company's highest level of financial information. For this purpose, the highest level of financial information is defined in order as:
  - a. Audited financial statements
  - b. Reviewed financial statements
  - c. Compiled financial statements
  - d. Tax returns.

Record only whole numbers. Round up dollar figures to the next highest dollar.

**NOTE:**

Any owner or leaseholder of a catcher vessel during any period in the calendar year identified on the EDR in which the catcher vessel was used to harvest crab in a Crab Rationalization (CR) fishery must submit to the DCA, at the address provided on the form, an EDR for a catcher vessel.

**Definition of "Leaseholder":** For the purpose of defining the persons responsible for submitting the EDR, a Leaseholder is a person, other than the owner of the catcher vessel for which the EDR is required, who: was identified as the leaseholder, in a written lease, of the catcher vessel, **OR** paid expenses of the catcher vessel, **OR** claimed expenses for the catcher vessel as a business expense on schedule C of his/her Federal Income Tax Return, or on a State Income Tax Return.

**Instructions for completing this EDR Form:** Provide all information requested in each section. Please record only whole numbers, and round all dollar values to the next highest dollar.

### 1. BSAI Crab Activity Chart

Record the following data items for each CR fishery in which this vessel participated. Leave the row blank for any fisheries in which the vessel did not participate.

#### **ADF&G Fish Ticket Number**

~~Record the ADF&G Fish Ticket numbers corresponding to the landings that occurred during each CR fishery. Include fish tickets landed for the harvest cooperative, if applicable.~~

#### **Number of Days on Crab Fishing Grounds**

Record the total number of days during each crab fishery that the vessel was operating in the fishing grounds. Do not include time spent waiting at processors or traveling to and from the fishing grounds. ~~Do not count days that pots were soaking but vessel was off grounds.~~

#### **Number of Days Traveling, Queuing and Offloading in Season**

Record the total number of days in-season during each fishery that the vessel spent traveling to and from fishing grounds, and queuing and offloading at processors. Do not include days traveling to and from home port before and after crab harvesting for the year.

**Comment [BGY1]:** Specify (if home port is not in BSAI region)?

#### **Number of Trips and Days Transiting to and from Home Port for Crab Season**

~~Record the number of trips and number of days during the calendar year that the vessel spent steaming to or from home port before and/or after participating in the crab fishing season. Indicate if trips were made exclusively for the purpose of participating in BSAI crab fisheries. Count each one-way trip (count round trip as two trips).~~

#### **Number of Days In Port Preparing for Crab Season**

~~Record the number of days that the vessel and crew spent in-port prior to crab fishing season preparing vessel for crab fishing season. Only include days that crew members were actively working on vessel in port. Do not include days while vessel was in transit.~~

## 2. Crab Sales, Gross Revenue

Record pounds sold to processors, deadloss, and gross ex-vessel revenue information on all BSAI Crab harvested, by fishery.

Report pounds and revenue separately by the category of harvest quota or permit used:

### IFQ Type

Report pounds sold, deadloss, and gross ex-vessel revenues for each category of IFQ:

A Type: CVO-IFQ A Class shares

B Type: CVO-IFQ B Class shares, CPO-IFQ, CDQ, and Adak

C Type: CVC-IFQ, CPC-IFQ

### Pounds Sold

For each of the listed fisheries and IFQ categories, record the total pounds of BSAI crab landed during the calendar year by this vessel.

### Deadloss

For each of the listed fisheries and IFQ categories, record the total deadloss for all crab landed by this vessel.

### Gross Revenue

For each of the listed fisheries and IFQ categories, record the gross revenue from crab delivered to processors during the calendar year. Include the value of any deductions from your payment for bait, taxes, IFQ or other deductions withheld from your payment by processors (we will ask you to report IFQ, taxes, and bait costs in Sections 3.2 and 5.1 of the EDR). Include any post-season adjustments received by the time of submitting this EDR, but do not report any payments not yet received as of this date.

### 3. BSAI Crab Quota

#### 3.1 BSAI Crab ~~Harvest~~ Harvest Quota ~~Used Lease Costs~~

In the table below, report the amount (in pounds) of annual quota permits, by fishery and share type, harvested by the vessel during the calendar year.

**Vessel Owner/Leaseholder's Quota:** report the amount (in pounds) of annual harvest quota permits, by fishery and share type, harvested by the vessel that was either a) held by the vessel owner/leaseholder submitting this EDR, or b) assigned by the owner/leaseholder to the harvest coop. Do not include quota pounds assigned to the harvest coop by the vessel owner/leaseholder that was harvested by a different vessel.

**Quota Held or Assigned by Others:** report the amount (in pounds) of annual quota permits, by fishery and share type, harvested by this vessel that was either a) held by a different person and transferred to the vessel owner/leaseholder, b) held by another person and harvested for them, or c) assigned by another person to the harvest coop. Report the amount separately for quota harvested through non-arms-length or in-kind agreements, and through formal cash-transfer agreements:

**In-kind/non-arms length agreements:** include all quota pounds harvested through in-kind trade of quota or other non-money assets, or through other non-lease arrangements where a price per pound cannot be calculated.

**Cash transfer agreements:** include all annual quota pounds harvested that were paid for by the vessel owner/leaseholder by cash transfer at full market value. Include pounds leased through a revenue sharing agreement only if the share payment to the quota owner reflected the full direct cost of the lease transaction to the landing vessel.

#### **Quota Cost**

Record the total cost of the annual quota you reported in **Cash transfer agreements:**, by fishery and share type. For quota leased through revenue sharing, report the total dollar amount of the landing revenues paid to the quota holders(s). Report only the direct costs for leasing quota, including all post-season adjustments. Indirect costs (e.g., broker fees, harvest cooperative fees) will be recorded in Section 5.1m.

**Number of Crew Contributing Shares (CV or CP Crew IFQ "C Shares" only):** Record the number of crew members (including captain) contributing CV or CP Crew IFQ shares to the harvest.

**Comment [BG2]:** This is still problematic in that, for multi-owner vessels, the pool of quota is separate from the vessels and pounds may not be assignable to a given vessel.

**3. BSAI Crab Quota**

**3.2 BSAI Crab Harvest Quota Costs to Crew**

In Table 3.2, report the total pounds and cost to crew members (including captain) for annual harvest quota that was charged to crew, either through direct charge or deducted from crew and captain share of landing revenues. Include any quota owned by the vessel owner for which a charge or deduction from share payment was paid by crew members (including captain). Include the pounds and cost of CV or CP Crew IFQ shares if a portion of the lease cost paid to one or more crew members supplying IFQ-C Shares was passed on to the crew as a whole.

**4. Labor Information**

**4.1 Crab Harvesting Labor Costs**

Record the following information for crew who harvest crab. Record the data for each CR fishery in which this vessel participated. Leave the row blank for any fisheries in which the vessel did not participate.

**Number of Paid Harvest Crew Members (exclude the captain):** Record the number of crew aboard the vessel (exclude captain) who provided crab harvesting labor during each listed fishery.

**Total Labor Payment to Harvest Crew (exclude the captain)**

Record the total payment made to crew (exclude the captain) for their crab harvesting labor. List the amount actually paid to crew in their settlement, *not* their earnings before crew- or vessel- related expenses (such as fuel, bait, quota lease, or food and provisions) were deducted or directly charged. Include all post-season adjustments to date. Do not include any payments to crew for their IFQ (enter this in Table 3.1). Do not include payment to crew for preseason vessel preparation (report in Table 5.1).

**Captain Labor Payment**

Record the total payment made to the captain for his services. List the amount actually paid to the captain, *not* the earnings before shared expenses (such as fuel, bait, quota lease, or food and provisions) were deducted or directly charged. Include all post-season adjustments to date. Exclude any payments to captain for his/her IFQ (enter this in Table 3.1). Do not include payment to captain for preseason vessel preparation.

In Table 4.2 below, indicate by checking the appropriate column whether the following expenses were deducted (shared expenses taken off the top of gross revenues), directly charged (charged to an individual after the crew share is calculated), or not charged to crew when calculating the harvest crew payments in BSAI crab fisheries. If expenses were treated differently in different fisheries, report how they were treated on average or most often.

**4. Labor Information**

**4.3 Revenue Shares**

In Table 4.3, indicate what percentage of the net share (total revenues minus the expenses listed in Table 4.2) was paid to the owner, crew, and captain for each of the listed CR fisheries. If you did not participate in a fishery, leave that row blank. If crew was paid wages in one or more fishery, and not by a share of net revenue, indicate N/A in the crew share column for that fishery. For each fishery that you did participate in, the shares you report for that fishery code in the owner, crew and captain column must sum to 100%.

**4.4 BSAI Crab Crew Licenses and Permits**

**Crew Licenses/Permit Numbers**

In Table 4.4, record the Alaska Commercial Crew license number **or** a State of Alaska Commercial Fisheries Entry Commission (CFEC) gear operator permit number for each individual who worked as a captain or harvest crewmember during the calendar year. For Commercial Crew Licenses, report the full 7-digit license number. For Gear Operator Permits, include the fishery code and permit number (e.g. M71B25321N). Indicate if the number reported is an ADF&G Commercial Crew License number or a CFEC Gear Operator Permit Number in the appropriate checkbox, and only record one license **or** permit number per crewmember. Do not count any crewmember more than once.

## 5. Vessel Costs

### 5.1 Costs for BSAI Crab Fishing Only

In Table 5.1, record the BSAI crab fishery operating costs for this vessel. These are costs that are incurred by this vessel solely in the BSAI Crab fisheries. Section 5.2 will ask for information on costs that may not be tied exclusively to the BSAI crab fisheries. Include any taxes paid on the listed items (e.g. fuel tax, sales tax) in the totals.

**a. Insurance Premiums (Hull, Property and Indemnity, and Pollution):** if you paid a specific premium for operating in the BSAI Crab fishery, record the cost here. Record insurance premiums that cannot be attributed just to crab fishing in Section 5.2.c (page 22-23). If you belonged to an insurance pool for the BSAI crab fishery, record the net costs of being in the pool (deposits into the pool minus any dividends received).

**b. Insurance Deductibles:** include any insurance deductibles paid for accidents that occurred on the vessel during 2007. Exclude any repair or medical costs paid by the insurance claim (i.e., only list your out-of-pocket expense).

**a. Crab Pots Purchased for Use in BSAI Crab Fishery, by Location:** record the total quantity and cost of crab pots purchased (new and used) during the calendar year. Include rebuilding costs only for used pots purchased during the year; report costs of repair and maintenance of your previously owned crab pots in 5.1n. Identify the location of the seller you purchased the pots from using the location codes listed below. Report costs of pots also used for commercial harvest of cod or other non-crab species in Section 5.2 a.

**b. Line and Other Crab Gear Purchases, by location:** the total expense on line, floats, and other fishing gear other than pots used in BSAI crab fishing. Identify the locations where you purchased these items using the location codes listed below.

**c. Bait purchased and used in BSAI crab fisheries, by location:** record the total quantity (in pounds) and cost of bait purchased during the calendar year. Do not include bait caught by the vessel or provided free of charge by processors or other suppliers, or bait you purchased prior to January 1 of the calendar year. Identify the locations where you purchased bait using the location codes listed below. For each crab fishery, record the total quantity (in pounds) of bait used during the calendar year. Include bait used from all sources (purchased, caught, etc).

**d. Fuel Used in BSAI Crab Fishery:** record the total quantity (in gallons) of fuel used record fuel purchases made for each of the BSAI CR fisheries. Identify the locations where you purchased fuel using the location codes listed below. Record the total quantity (in gallons) of fuel and the purchase cost including fuel taxes. Indicate in the check box if fuel purchase cost includes lubrication and fluids. Record fuel purchases in each crab fishery for the entire period in which you were fishing in, traveling to and from, and offloading during each CR fishery. Record fuel costs for transiting to and from your home port before and after the crab fishery in Table 5.2d.

**e. Food and Provisions for Crew:** record the total cost of these items consumed and used by the crew. Do not include any items that were paid for by crewmembers, either directly paid or withheld from their earnings.

**f. Other Crew Costs:** list additional expenses for crew and the associated costs (for example, transportation costs, medical costs, payroll taxes, unemployment insurance, etc.) Do not include any items that were paid for by crewmembers, either directly or withheld from their earnings.

**g. Freight Costs for Landed Crab:** record the total expenses for shipping crab caught aboard this vessel for sale or processing elsewhere.

**h. Storage, Wharfage, and Delivery:** record the total storage, wharfage, trucking, and delivery costs for pots and other equipment used aboard this vessel in the crab fisheries.

**i. Port Costs:** report costs paid for vessel moorage during the crab fishery, including any utilities or other port charges.

**j. Observer Costs:** record the sum of all observer fees paid in each CR fishery for the year.

**k. Crab Landing Taxes and Fees:** record the sum of all state and local fish taxes (e.g., Alaska fisheries business tax, local landing tax, cost recovery and buyback tax, arbitration assessment, and others) you paid for landing BSAI crab. These taxes and fees were included in the Gross Revenue recorded in Section 2.

**l. Fishing Cooperative Costs:** record the total cost to you for this vessel's participation in a BSAI crab fishing cooperative, including intercooperative exchange fees. Exclude any monies paid to purchase or lease crab ITQ. List only the costs associated with membership or operating costs of the cooperative.

DRAFT

**m. Crab Arbitration and Intercooperative Exchange Costs:** record fees, dues, or other costs associated with crab arbitration association and intercooperative exchange membership and services

**n. Vessel Preparation Labor:** record the number of crew man hours and labor cost for preseason vessel preparation for crab fishing. Report costs for general vessel repair and maintenance not provided by crab harvest crew in Table 5.2b.

**o. Other Crab-specific Costs:** list additional expenses incurred for BSAI Crab fishing and the associated costs (for example, pot and gear repairs, association/marketing fees, vessel communication costs, vessel leasing costs, accounting fees, overage fines, etc.).

## 5.0 Vessel Costs

### 5.2 Annual Vessel Costs

In Table 5.2, please record all of the following costs that were incurred for your vessel during the **2010** calendar year. Indicate if these costs were incurred for the BSAI crab fishery only by checking "Yes" under "Crab-only Cost". Otherwise, check "No" and these costs will be averaged out over *all* your crab and non-crab activities during the year.

**a. Investments in Vessel and Equipment:** record the total cost of improvements or investments in vessel, gear and equipment for the year. This includes the costs of all assets that were financed or purchased using Capital Construction Fund monies during the calendar year and will be depreciated for tax purposes. Do not include standard repairs and purchases that were paid for completely from calendar year income (record these in item 7.2b), and exclude investments made solely for non-crab fisheries. Identify the location of the seller you purchased the improvements from using the location codes listed below.

**b. Repair and Maintenance for Vessel and Equipment:** record the repair and maintenance expenses for maintaining this vessel and repairing mechanical and physical problems with the vessel or equipment (exclude investment expenditures included in item 5.2a). Exclude expenses or repairs that result solely from non-crab fisheries. Include salaries of employees whose job is to perform R&M only if their wages are *not* already included in Section 5.1m. Identify the location where you obtained the R&M goods and services using the location codes listed below.

**c. Insurance Premiums (Hull, Property and Indemnity, Cargo, and Pollution):** record the total costs of your annual insurance premiums for this vessel.

**d. Fuel, Lubrication, and Fluids:** Record the total quantity (in gallons) and cost of fuel purchased for the vessel during the calendar year, by location of fuel purchase using the location codes provided below. Report purchase cost including fuel taxes. Indicate if fuel purchased was for crab fishing only. Indicate in the check box if fuel purchase cost includes lubrication and fluids (major fluid replacement costs should be reported in item 5.2b). Record the total quantity (in gallons) of fuel used during the calendar year transiting to and from home port before and after participating in BSAI crab fisheries. Do not include fuel used in season (reported in Table 5.1d). Indicate if transit was for crab fishing only.

**e. Other Vessel-specific Costs:** record any other significant cost(s) that were incurred in order to fish for crab in calendar year **2010** that were not included in the categories above, and not reported in the crab season-specific table (Section 5.1). Please describe the nature of the expense(s) and do not list costs of permits or licenses.

**6. Annual Totals for All Fisheries**

Please record the total sum for the calendar year for days at sea, gross revenue, pounds retained, and labor costs for this vessel. Be sure to include all fishery participation for the calendar year, **including vessel activities other than BSAI Crab fishing (i.e., include groundfish, chartering, tendering, etc)** and days spent transiting from/to home port. Do not include revenues from sale or lease of quota or permits.
